Application for Certification of Equipment

P-Com, Inc. requests that the Federal Communications Commission maintains the confidentiality of certain information provided in this Application for Certification of Equipment.

The information provided to the Commission in the Exhibits identified below contain detailed technical information, proprietary technical information, trade secrets and designs for which P-Com, Inc. plans on applying for patents. The information that has been provided goes well beyond that which P-Com, Inc. would make available to the public. At this early stage in the marketing of this equipment, P-Com, Inc. would suffer irreparable damage should this information be provided to a competitor.

The specific information for which P-Com, Inc. is requesting confidentiality is contained in the following Exhibits:

Exhibit O: Modulation System Description

Exhibit P: Product Schematic Diagrams
