

BigLeash® Firefly® Features

The BigLeash Firefly Receiver provides a **built-in light** to help you keep track of your dog at night. The Firefly light can be activated from the BigLeash Transmitter.

BIGLEASH FIREFLY RECEIVER

Status Light*

Firefly Light Strips

1. Turn "on" the BigLeash by holding the Receiver and the Transmitter next to each other at the Alignment Markers. If you are using the BigLeash for two dogs, turn on both Receivers.
2. To activate the Firefly light strips on Collar 1, press the Collar 1 button on the Transmitter.
3. To activate the Firefly light strips on Collar 2, press the Collar 2 button on the Transmitter.
