RE: Wireless Computing

FCC ID: L7MR170

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) The address listed for the Applicant on the FCC website for Grantee code L7M does not match the address used on the Application form, nor the letterhead used for formal letters. If the Applicant has moved from the original address, then they must make sure that keep FCC informed of all changes in contact information.
- 2.) You goofed – you uploaded your internal photograph exhibit twice as both Internal and External photos. Please correct. In addition, the internal photos supplied are deficient – we must have top and bottom of all PWB.
- 3.) Kindly provide a block diagram of the RF portion of this wireless laser mouse. Please describe how this device creates, modulates and amplifies RF energy.
- 4.) Your Form 731 appears to be in error. I believe that all .0225W (22.5mW) devices will always exceed the limits of 15.249. In brief, very few Part 15C devices ever need to concern themselves with listing RF power, frequency tolerance or emission designators. Exceptions are for Part 15C devices which potentially have RF exposure concerns (i.e. 15.247, 15.407).
- 5.) The label as some errors too. The correct format is "FCC ID:" – you need to insert the colon. In addition, all letters and numbers need to be the same upper case size. Also, there is no information as to where the label will be located on the device. Please provide as soon as practical.
- 6.) Where can I find the 15.19(a)(3) two-part statement?
- 7.) Is Professional Testing accredited to either A2LA or NAVLAP?

William H. Graff  
President

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
