To Whom It May Concern:

**PURPOSE OF CHANGE LETTER**  
**For Model HUM1200(XXXXX)/ HUM1250(XXXXX)/**  
**HUM1260(XXXXX)**

This letter is to provide information regarding the Application of Permissive Change for our model HUM1200(XXXXX)/ HUM1250(XXXXX)/ HUM1260(XXXXX) with 4 layer PCB based on the previously certified model HUM1200(XXXXX)/ HUM1250(XXXXX)/HUM1260(XXXXX) with 2 layer PCB.

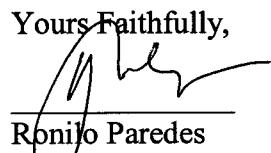

The above-mentioned models are identical in, construction, dimension, and electrical circuits.

The main modification is the changing of PCB from 2 layer to 4 layer. By resorting to 4 layer PCB, the sound quality is improved. In addition, the 4 layer PCB is also supportive to package and dice IC whereas the 2 layer PCB only support package type.

All design like electronic, electrical, mechanical and cosmetic designs remain the same except the layout.

The above-mentioned change is not intended for maximum power and change on field strength ratings.

Yours Faithfully,

  
Ronilo Paredes  
Senior Approval Engineer
