This is in reply to your 21 August email re LFO-WR2411

1. Confidentiality letter was submitted to website
2. Antenna photos were submitted to the website
3. This product is sold for professional installation only. The product is not sold to the general public. The user manual calls out professional installation requirements
4. Processing gain data was submitted to the website
5. Instrument settings for radiated emissions above 1GHz:  
PEAK: RES BW = 1 MHz VID BW = 1 MHz  
AVERAGE RES BW = 1 MHz VID BW = 10 Hz
6. Bandedge plots were submitted to the website. In addition, tabular data and description of the test setup and correction factors was submitted to the website.
7. Radiated emissions below 1 GHz were submitted to the website

Notice\_content

-----

Question #1: There is no request for confidentiality letter submitted. Please confirm that no files will be requested for confidentiality .

Question #2: Please provide Antenna photos for each type that are included with this application.

Question #3: Antenna Connector requirement (15.203). Please justify that antenna connectors used are comply with 15.203 requirements.

Question #4: Please provide Processing Gain test data. As indicated in the test report, there are separate excel file for processing gain data.

Question #5: Please indicate the instrument setting for Radiated Emission tests ( 15.205 ).

Question #6: Bandedge Compliance :It is required by FCC to submit the specturm plot to demonstrate bandedge compliance for 15.247 device. Please provide the specturm plots to comply this requirements.

Question #7: Radiated Emission : There is no radiated emission data submitted for frequency range from 30 MHz to 1000MHz. Please provide it.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
