Subject: FCC ID: LGYBT261159

Mr. Fujimoto:

In order for processing of this application (FCC ID: LGYBT261159) to continue, the following issue(s) will have to be addressed:

- 1) There was no data sheet in the test report for spurious emissions below 1 GHz. Was this frequency range investigated?
- 2) The block diagram submitted is not sufficient. As per 2.1033(b)(5), it must show the frequency of all oscillators in the device, and indicate the signal path and frequency at each block, including any intermediate frequencies.
- 3) The operational description needs to be more specific to the actual usage of the device. A generic datasheet is not sufficient.
- 4) The user's manual must contain the statement required by section 15.21 of the FCC rules.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is LGYBT261159-1.

Best regards,

Scott McCutchan
