RE: FCC ID: LJPRM-48_ATCB002050

Attention:

Kare Oksanen |

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please provide the manual for this device.
2. FYI - Please note that the proper ANSI C63.4 version to reference in Part 15 testing is ANSI C63.4 2003.
3. FYI – Please be consistent in the report documentation. Part of the report states the measurements were made at 3 meters (section 4.2.1) and part says it was performed at 1.6m (section 4.27). While a distance correction factor has been provided, the report should still be consistent.
4. Please note that part 22 devices must report power in ERP not EIRP. Please provide power measurement data in ERP for the Part 22 portion.
5. Please note that it appears that the radiated emissions has been reported in EIRP. Please note that Part 22 spurious emissions is to be reported in ERP not EIRP. Please report radiated spurious emissions in ERP.
6. Please provide the required test setup photos for the Part 15B submittal.
7. For IC please provide the RSP100 form.

A handwritten signature in black ink that reads "Dennis Ward".

Dennis Ward

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
