Hi Tom,

This is only a reminder that a preliminary administrative review has been performed and that the full review cannot be completed until the DFS report is submitted. I know you are aware of this already.

Please send me an email when the DFS report is submitted, or email the report directly to me.

Thanks and best regards,

Tim Dwyer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Hi Tim,

Here is the DFS report.

best regards

Tom

subject DFS reports for Alvarion Ltd., Certification No.: 2514A-VL53, Assessment NO.: AN07I2031

Hi Tim,

Here are the Master and Slave reports. Note FCC has slave under FCC

ID: LKT-VL-53 and master under FCC ID: LKT-VL-53C

For IC, one application fits both

Any questions, please call.

best regards

Tom

Hi Tom,

On May 2, I sent a reminder that the application review could not be completed until the DFS report was received. As of today, there is no DFS report in the upload area. I have picked up the related IC application AN07I2031 and see that a DFS report was uploaded on 10 May. I will continue with the review of the IC application.

The concern I have for this FCC application (AN07T6765) is that the DFS report filed with the IC application describes operation as a Master device. If this is the case for the FCC application, it cannot be processed by the TCB. Please reply with any additional information you may have on this application.

Best regards,

Tim Dwyer

Hi Tim,

For this FCC ID the product is configured as a subscriber only with no radar detection. FCC ID: LKT-VL-53C can be configured as master or slave and is the master device used with LKT-VL-53.

Attached are the LKT-VL-53C report for your reference and the revised LKT-VL-53 report, corrected to show the ID of the master unit.

best regards

Tom
