

- 1. The label has been revised to read "Contains FCC-ID: LM8-K660066001"**
- 2. The Anti-Drug Abuse and Letter of Authority has now been uploaded.**
- 3. The Test Setup Photos have been revised to include closeup photos.**
- 4. Section 6.2 of the test report has been revised. Please see the revised test report.**
- 5. An updated manual has been uploaded.**
- 6. The modular approval exhibit has been revised to state that sampel label to show what the end-product label will look like. Also, the module will NOT be sold as an OEM or to OEM's, but only put into products that the manufacturer makes.**
- 7. The EUT was not modified. That Modification was for another project and this section was accidently not updated to show that no modifications were made. The test report has been modified to show this.**
- 8. The EUT had enough margin to pass without averaging. The data sheets have been revised to reflect this.**
