Brand:	Actiontec																																																
Model:	AD-1260																																																
Input:	120Vac, 60Hz, 13W																																																
Output:	12Vdc, 600mA																																																
Power line:	1.8m non-shielded cable without core																																																
Adapter 2																																																	
Brand:	Actiontec																																																
Model:	ADS10-W																																																
Input:	100-240Vac, 50-60Hz, 0.5A																																																
Output:	12Vdc, 600mA																																																
Power line:	1.8m non-shielded cable without core																																																
Adapter 3																																																	
Brand:	Actiontec																																																
Model:	UP0181B-12PA																																																
Input:	100-240Vac, 50-60Hz, 0.4A																																																
Output:	12Vdc, 1A																																																
Power line:	2.1m non-shielded cable with one core																																																
BRAND	Actiontec																																																
MODEL	ADA07512																																																
INPUT	100-120Vac, 50/60Hz, 0.5A																																																
OUTPUT	12Vdc, 600mA
