

15 Exhibit C - EUT Photographs

15.1 EUT – Front View

15.2 EUT – Top View

A photograph of a Verizon Wireless Fios Gateway (Fios 360) router. The device is black with two antennas. A wooden ruler is placed below the router for scale, showing the device is approximately 18 inches long. The front panel features a coaxial port, power button, power jack, and several network ports (LAN, WAN, USB). The Verizon logo is visible on the top.

A black VeriOn Actiontec 3G USB modem is shown against a blue background. The device has a white top section with technical specifications and a barcode. The front face is black with a grid of ventilation slats and the 'verion' logo. Two black antennas are attached to the bottom. A wooden ruler is placed horizontally below the device for scale, showing measurements in centimeters.
