

**NOTE:**

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

**ATTENTION:**

Changes or modifications not expressly approved by Futurecom Systems Group Inc. could void the user's authority to operate the equipment.

RF EXPOSURE**ATTENTION:**

To satisfy FCC/IC RF exposure requirements for mobile transmitting devices, a separation distance of 65cm or more should be maintained between the antenna of this device and persons. To ensure compliance, operations at closer than this distance is not allowed.

**RADIO OPERATOR:**

Futurecom requires the MOBEXCOM DVRS Repeater operator to ensure FCC Requirements for Radio Frequency Exposure are met. The minimum distance between all possible personnel and an omnidirectional antenna with gain not greater than $0d_{Bd} = 2.15 dBi$ must be at least 65cm (approximately 25.6").

FAILURE TO OBSERVE THE MPE DISTANCE EXCLUSION AREA AROUND THE ANTENNA MAY EXPOSE PERSONS WITHIN THIS AREA TO RF ENERGY ABOVE THE FCC EXPOSURE LIMIT FOR BYSTANDERS (GENERAL POPULATION). IT IS THE RESPONSIBILITY OF THE REPEATER OPERATOR TO ENSURE THAT MPE LIMITS ARE OBSERVED AT ALL TIMES DURING REPEATER TRANSMISSIONS. THE REPEATER OPERATOR MUST ENSURE AT ALL TIMES THAT NO PERSON COMES WITHIN MPE DISTANCE FROM THE ANTENNA.

**ATTENTION:**

The MOBEXCOM DVRS Repeater must be restricted to occupational use only to satisfy FCC RF Exposure requirements.
