Dear Commission:

Pursuant to Title 47 section 0.459 of the Code of Federal Regulations, Premier Wireless is requesting that the FCC hold confidential the schematics submitted with the application LRS-MRE300TX. These schematics are proprietary information not available to the general public and fall within the scope of Section 0.457(d) and of Section 552(b)(4) of the Freedom of Information Act as trade secrets. Release of this information to the public would cause both competitive and financial harm to Premier Wireless. Thank you for your cooperation in this matter.

Sincerely yours,

Michael Long
President
