

FCC ID:LSQ-IDEU-830-2

## **Product/technical description**

One-Piece Home Curfew RF Monitoring unit/Beacon, model IDEU-830-2, is placed at the Offender's home to provide an enhanced level of home curfew control for offender under supervision of 1Piece GPS tracking program. The Beacon unit provides an alternative RF communication, allowing for continued monitoring of the offender while indoors. This functionality allows the 1 Piece device to discontinue searching for GPS/LBS location when indoors, thus saving on the battery life of the 1 Piece unit.

The antenna is from helical type.

The device is a transceiver, operating at 433.92 MHz frequency, GFSK is the type of modulation and the Bit rate is 76.8KBPS.
