Dear Sir/Madam,

Re: Permissive Change II for FCC ID: LUBCHS3 and IC:2529A-CHS3

Please review the attached exhibits supporting our request for a Permissive Change II applying to the Socket Mobile Cordless Hand Scanner M/N: CHS 7X and CHS 7XRx.

The only difference between the certified models and the updated models is as follows:

- 1) **7Xi & 7XRxi.** *These models are the same configuration as the 7X, but both include an Apple authentication chipset on the motherboard required to work with the iPad/iTouch/iPad series.*
- 2) *Difference between the 7Xi & 7XRxi is the anti-microbial case material.*

None of the changes affect the Tx / Rx circuitry in any way.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Cole".
