**RE: LW2-9000X Antenna, FCC 15.203 compliance**

To whom it may concern,

The Emerson Synchros 9000X is using an Antenova Dolo SR4W089 SMD linearly polarized antenna with a max gain of 3.0 dBi. The antenna is permanently attached to the radio. In compliance with FCC 15.203, additional antennas are not able to be installed with the product.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Wolf".
