RE: Request for Class II Permissive Change
Pursuant to Section 2.1043 of the Commission's Rules,
Rosemount Inc. hereby requests a Class II permissive change to the
RM2510 radio module (FCC ID LW2RM2510) as outlined below:

The Rosemount, Inc.'s RM2510 Radio Module was originally certified under CFR 47 Part 15.247 for systems using digital modulation. The original equipment included a 2dBi vertically polarized dipole antenna.

We hereby request a Class II permissive change approving a new 4.5dBi vertically polarized dipole antenna. The RM2510 Radio Module has been tested and shown to comply with the Commissions' Rules with the new antenna. No other changes have been made to the device.

Sincerely,
Merritt Pulkrabek
