Hi, Steve,

Please review our replies upon your comment, as follows:

Q1 & 4: Please find the attached user manual which is modified upon your comment.

Q2: All the testes are carried with the Loop Antenna (EMCO 6502), details can be found on the pages 12.

Q3: Please find the attached report which is revised upon your comment.

Thank you!!

Should you have any question, please don't hesitate to ask me.

Best regards,

Eric Wong

RT for project: AN03T3375 UC-Logic M35UCWPK01

Subject:

Question #1: 15.21 warning label could not be found in users manual or on the device.

Question #2: Test report P14, please declare which antenna was used for

300K  
fundamental emission measurement.

Question #3: Test report P14, Please explain how 118.66 dBuv limit is obtained.

Question #4: Per Section 15.19 Labeling requirements. Following label is required. However it cannot be found on EUT label or users manual. Please clarify.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Best Regards
