

3) If label is not located externally, please confirm compliance the following requirements to: From KDB: 784748

As an option to placing the FCC label on the exterior of the device, the FCC label may be placed in a user accessible area if the following conditions are met:

- The device is handheld (notebook computers are considered as handheld);
- The FCC identifier is visible at the time of purchase. Marketing the device without the battery installed when the label is in the battery compartment is acceptable. The FCC ID on the box, or additional documentation directing the user where to find the FCC label, also satisfies this requirement;
- The user accessible area must not require any special tools for access, and the FCC label must not be placed on a removable part;
- The FCC ID, Model Number, or FCC logo must be on the label and must meet all general labelling requirements or policies that apply for Certification, Verification or DoC.

The label meets these requirements. (1) It is handheld. (2) Label information is made visible to the end consumer at the time of purchase by the dealer and/or by labeling on the bag including the fobs. (3) No special tools are needed to access the label and battery. (4) The labeling location is non-removable and meets all the other labeling requirements.
