

## Description of Permissive Change

Ref: FCC Class II Permissive change for FCC ID: M72-STG62R

(Original DTS/DSS/NII cert approval date: 05/09/2024)

This application is prepared for FCC Class II permissive change. The difference is a change in RF front end module (FEM), more detail please refer to internal photos. The new FEM component is pin-for-pin compatible and has the same basic function as the original; no change in radio parameters has occurred.

The modules mentioned above has been approved and is electronically and mechanically identical to the original instructions and requirements.

Except for the changes mentioned above, no other modification is performed.
