I will inform you as below;

Answer for Q#1: Setup photos submit by e-filing as Exhibit k-1.

Answer for Q#2: Emissions below 1GHz are emitting constantly even if non-transmitting condition. Accordingly it seems that 15.209(a) is not applicable. 15.109(a) in Unintentional Radiators will be applied. Therefore, it complies with 15.209(c), we believe. Please let us have your comments.

Answer for Q#3: EUT External Photo submit by e-filing as Exhibit K-2.

Regards,
Kyoze Ouchi
