

FCC ID: M8QF81049TX

Circuit Description

The 49.86MHz crystal oscillator drives the base of Q3 the final/buffer amplifier. The modulation provided by IC1. The output of Q3 has the matching network consisting of C10 and L4 that limit the harmonic content and effect the proper coupling of the antenna to the output stage.

Antenna, Ground and Power Source

The antenna consists of a 40.3cm long metal antenna. There is no external ground connection. The ground is only that of the printed circuit board. Electric current is supplied by a 3 Volt ("AA" size battery x 2) primary battery
