

ISL *INTERNATIONAL STANDARDS LABORATORY*

Dear Tim,

Here are our answer for item 5.

We have test the average and peak value of restricted band again; the frequency range is 2310~2390MHz, 2483.5~2500MHz. Please see the update report on page27~29.

(See attached file: 04lr022FC-update.doc)

Please review the information we supplied.
Thanks for your help.
