7435 Oakland Mills Road
Columbia, MD 21046

Subject: Extended Frequencies Justification

Gentlemen:

The MMA713200A was designed to operate in the frequency band of 136.000 to 156.000 MHz. To aid equipment authorization in other countries that accept the United States FCC Grant of Certification, this will service as a request that the FCC list the frequencies of 136.000 to 156.000 MHz under the FCC Rules Part 90 on the FCC Grant.

For the FCC's Rules Parts 90 applications, this radio is used in systems by Federal and Public Safety agencies including Police, Fire and Emergency Medical Services, etc. as indicated in the table below.

Equipment programming is the responsibility of Authorized Service Personnel only. In addition, the radio complies with 47 CFR Part 90.203(e) in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

FREQUENCY RANGE (MHZ)	RULE PART	RULE PART (IF APPLICABLE)	FEDS	EMISSION DESIGNATORS
136.0-150.8			X	I1K2F3E
150.8-156.0	90			“

Sincerely:

Gary Hamilton, LMR Engineering Manager
Midland Radio Corporation
