RE: Ohmart/Vega

FCC ID: MOIPULS656667

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please provide a block diagram as specified by 2.1033(b)(5).
- 2) The label must use "FCC ID" as specified by 2.925, not "FCC I.D." before the actual identifier used. Additionally the preferred labeling by the FCC is actually "FCC ID:" Please correct the label.
- 3) The schematics provided contain many unreadable parts on pages 3 & 4. Please provide better schematics for these 2 pages
- 4) Please confirm that the device has been tested to comply with the Class A or Class B digital device emissions requirements. Note that the users manual does not appear to contain information for this as required by 15.105.
- 5) FYI, in the external photographs showing the antenna, it appears that the 17 dBi antenna is incorrectly referenced as a Horn. From information in the test report, it appears that this may be a rod antenna.

A handwritten signature in black ink, appearing to read "Timothy R. Johnson".

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
