Dear Ms Zhao

We are writing to you in response to your e-mail of June 28, 2006.

For Question #1

Sorry, we will add the following words in the test report page11(1.7.2).
"During the tests, the EUT was supplied the operating frequency by the
match
transmitter."

Please check attached the test report.

Thank you again for your consideration.

Sincerely yours,
Katsunori Miura

Subject: Tokai Rika Co., Ltd., FCC ID: MOZE11UG, Assessment NO.: AN06T5898, Notice#1

Question #1: This device is a Super-Heterodyne receiver. Based upon ANSI C63.4:2003 section 12.1.1.2 Other types of receivers "A typical signal or an unmodulated CW signal at the operating frequency of the EUT shall be supplied to the EUT for all measurements. Such signal may be supplied by either a signal generator and an antenna in close proximity to the EUT..."

But the test report does not indicate a match transmitter or a signal generator (equipment # 60-62) has ever been used during the test. Please explain how you made the EUT in receiving mode during the test, as specified
in page 11. Please update the test report.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted.
Any questions about the content of this correspondence should be
