

Difference between devices:

The Vocollect device is the exact same hardware minus the radio card for each of the models listed below.

|              |                                                           |
|--------------|-----------------------------------------------------------|
| TT-500       | Terminal - Talkman-OPEN (Apollo)                          |
| TT-500-22300 | 2.4 GHz Symbol radio 802.11                               |
| TT-500-24300 | 2.4 GHz Proxim RangeLAN2                                  |
| TT-500-25300 | 2.4 GHz Aironet 4500 radio DS/802.11                      |
| TT-500-26300 | 2.4 GHz Aironet 3500 radio FH/802.11                      |
| TT-500-28300 | 2.4 GHz Lucent radio 802.11                               |
| TT-500-30300 | 2.4 GHz Aironet 4800 radio DS/802.11                      |
| TT-500-30360 | 2.4 GHz Aironet 4800 radio DS/802.11- GERMAN/GERMANY ONLY |

The user Guide and operating instructions are exactly the same as the previous Aironet 4800 testing that was conducted on 12-13-99.
