2003 Falcon CLA User guide

Setup Instructions:

The 2003 Falcon CLA is your portable power intended for use exclusively in an indoor environment, such as an automobile, with a 12v cigarette lighter outlet.

1. Plug the 2003 Falcon CLA to the designated device.
2. Plug the 2003 Falcon CLA to your automobile 12v cigarette lighter outlet.

Warranty does not include malfunction caused by accident, misuse, contact with solvent chemicals or malfunction caused by tampering or modification. This warranty excludes all incidental or consequential damages. Some states do not allow the exclusion or limitation of consequential damages so the above limitation may not apply to you.

For Warranty Service, the product must be returned at your expense to place of purchase. Return policies may vary. If you cannot reasonably do this, please contact us stating the nature of the defect and date of purchase. Include a copy of your sales slip or proof of purchase. Your repaired or replacement equipment will be returned to you at our expense. This warranty gives you specific rights: you may also have other legal rights which vary from state to state.

FCC Notice: This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Caution: changes or modifications not expressly approved by Monster Cable Products Inc. may void the users authority to operate this device.

Note: This equipment has been tested and found to comply with the limits for a class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.
