

EverWin International

Wireless MP3 player User guide

Setup Instructions:

The EverWin International model # S2G0508 Wireless MP3 adapter is your own personal FM broadcast station intended for use exclusively inside an automobile with a 12v cigarette lighter outlet.

1. Plug the Wireless MP3 adapter to your MP3 player equipped cell-phone.
2. Plug the Wireless MP3 adapter to your automobile 12v cigarette lighter outlet.
3. Set the Wireless MP3 adapter to desired FM channel by pressing the push button switch and noting the channel indication on the adapter.
4. Tune your auto FM stereo to same channel as indicated by wireless MP3 adapter
5. Select an album on the MP3 player of your cell-phone and push the playback button.
6. Adjust FM stereo volume control to desired level.

For best results, preset the MP3 adapter to FM frequencies that are not occupied by strong local FM broadcast stations.

Warranty does not include malfunction caused by accident, misuse, contact with solvent chemicals or malfunction caused by tampering or modification. This warranty excludes all incidental or consequential damages. Some states do not allow the exclusion or limitation of consequential damages so the above limitation may not apply to you.

For Warranty Service, the product must be returned at your expense to place of purchase. Return policies may vary. If you cannot reasonably do this, please contact us stating the nature of the defect and date of purchase. Include a copy of your sales slip or proof of purchase. Your repaired or replacement equipment will be returned to you at our expense. This warranty gives you specific rights: you may also have other legal rights which vary from state to state.

FCC Notice: This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Caution: changes or modifications not expressly approved by EverWin International Corp. may void the users authority to operate this device.

Note: This equipment has been tested and found to comply with the limits for a class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.
