

Brand Name: ASUS Model Name: RT-BE96U

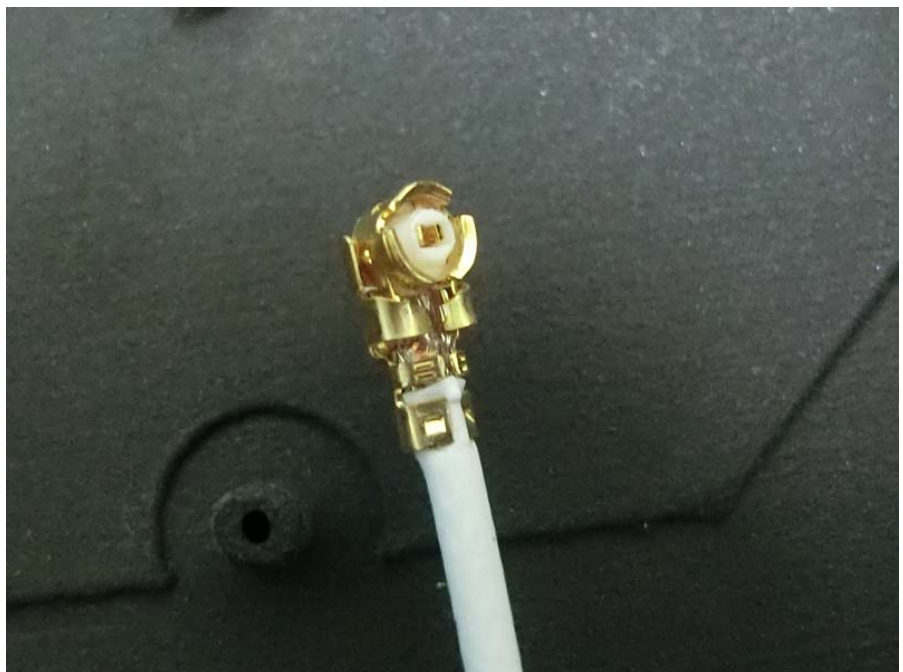

The image shows a custom-built PCB for a Raspberry Pi 4. The board is black and features a large, black, finned heatsink covering the CPU and GPU. A USB-C port is visible on the left side, and a 40-pin GPIO header is located on the right. The board is shown next to a ruler for scale, indicating its dimensions. The text "Buddy Y2-043" is visible in the bottom right corner of the image.
