

ASUSTeK COMPUTER INC.

Declaration of Product Modifications

Date: Jul. 15, 2016

This is to request a Class II permissive change for **FCC ID: MSQ7265D2**, originally granted on **05/25/2016**.

The subject approved module is being used in a specific host (mobile and portable client devices only).

The major change filed under this application is:

Change #1: Reduce the Power through firmware to establish conditions based on modular stand-alone SAR evaluation to establish minimum 5mm antenna to user separation distance at a maximum SAR value <0.8W/kg(1g) for mixed mobile/portable conditions .

Change #2: The Band 1 previously authorized under "Old Rules, a Class II permissive change filing to demonstrate compliance with the "New Rules", all others hardware and software is identical with original granted.

This Change is according to KDB 926956 D01 U-NII Transition Plan v01r05. The minimum test requirements for Class II permissive change is according Answer of Question 16 section a) requirements.

Sincerely,

**Jackson Yen // Associate Vice President
