RE: ASUSTeK Computer Inc.

FCC ID: MSQCFTA1

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) The contact window listed at the FCC website is Henry Yeh. But all relevant documents are signed by Peter Weng. Under what authority does Peter Weng speak on behalf of ASUSTeK?
- 2.) This computing device contains three transmitters under one FCC ID. Please provide individual and unique schematics and block diagrams for the 802.11a/b/g card, the Bluetooth device, and the RFID. This device will create four unique Grants of Equipment Authorization under the following FCC equipment codes: DTS, DSS, NII, and DXX.
- 3.) Please provide Test Setup photographs.
- 4.) The SAR report indicates this device operates on channels where DFS testing is required. Please review.
- 5.) Why does SAR report indicate it's use is for Canada? Why Canada maple leaf?

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
