

Internal Photos of EUT

The image shows a detailed view of a green PCB. The central component is a black square IC with the text 'SYN100-1228' and 'SYNCOMP, TAIWAN' printed on it. To the left of the IC is a smaller black component labeled 'T24C64A-12454b'. To the right is a large black rectangular component. The PCB is populated with numerous small components, including capacitors (one labeled 'CS 220 6V'), resistors, and a component labeled 'JA120-46(V1.0) 20M/11/30'. The PCB has several gold-plated pins along its edges, and the text 'WE-A' is visible near the bottom center.
