

Description of Permissive Change

This application is prepared for FCC class II permissive change. The differences compared with the original application are listed as follows:

- ✓ Modified main board version from V05A to V06A.
- ✓ Added a microcontroller (ATMELGA168, U106) and modified PWM IC (U103, U102, U101) to have better solution to comply with requirement of Energy Star.
- ✓ Add second source component of DC/DC converter.

These changes had performed related tests; please refer to test reports for more detail.
