## Product information

The equipment under test (EUT) is a batteries operated RFID Toys operating at 13.56MHz. It consist of a pirate island and seven RFID tags on different symbol coins. The RFID tags and 5 yellow flames (5 LEDs) perform as a kind of password combination to open the door.

## Measurement Uncertainty

The estimated combined standard uncertainty for radiated emissions measurements is  $\pm 5.10\text{dB}$  (30MHz to 200MHz) and  $\pm 5.08\text{dB}$  (200MHz to 1000MHz).

| 203.445  | 31.7  | 43.5 / QP              |
| 447.580  | 29.3  | 46.0 / QP              |

**Verdict:** Pass

Remark: There is no spurious emission found between 9kHz to 30 MHz.

**Subclause 15.215 (c) – 20 dB Bandwidth**
**Pass**

**Requirement:** The intentional radiators must be designed to ensure that the 20dB bandwidth of the emission, is contained within the frequency band designated in the rule section under which the equipment is operated.

Test Specification : ANSI C63.4 – 2003  
 Mode of operation : Operating mode  
 RBW/VBW : 10KHz/10KHz  
 Supply voltage : DC6V, 4 X AA size batteries  
 Temperature : 23°C  
 Humidity : 50%

**Results:** For test protocols refer to Appendix 1, page 2.

| Frequency (MHz) | 20 dB left (MHz) | Limit (MHz) | 20 dB right (MHz) | Limit (MHz) |
|-----------------|------------------|-------------|-------------------|-------------|
| 13.564          | 13.541           | > 13.110    | 13.593            | < 14.010    |

**Subclause 15.225 (a-d) – Radiated Emission**
**Pass**
**Field Strength Calculation**

The field strength at 3 m was established by adding the meter reading of the spectrum analyzer to the factors associated with antenna correction factor, cable loss, preamplifiers and filter attenuation.

The equation is expressed as follow:

$$MR = R + AF + CF + FA - PA$$

Where MR = Measurement Results in dBuV/m at 3 meters.

R = Reading of Spectrum Analyzer in dBuV.

AF = Antenna Factor in dB.

CF = Cable Attenuation Factor in dB.

FA = Filter Attenuation Factor in dB.

PA = Preamplifier Factor in dB.

FA and PA are only be used for the measuring frequency above 1 GHz.

**Requirement:**

- (a) The field strength of any emissions within the band 13.553-13.567 MHz shall not exceed 15,848 microvolts/meter at 30 meters (124 dBuV /m at 3 meters with extrapolation factor of 40 dB/decade).
- (b) Within the bands 13.410-13.553 MHz and 13.567-13.710 MHz, the field strength of any emissions shall not exceed 334 microvolts/meter at 30 meters (90.5 dBuV /m at 3 meters with extrapolation factor of 40 dB/decade).
- (c) Within the bands 13.110–13.410 MHz and 13.710–14.010 MHz the field strength of any emissions shall not exceed 106 microvolts/meter at 30 meters (80.5 dBuV /m at 3 meters with extrapolation factor of 40 dB/decade).
- (d) The field strength of any emissions appearing outside of the 13.110–14.010 MHz band shall not exceed the general radiated emission limits in § 15.209.

Test Specification : FCC Part 15 Subpart A – Subclause 15.31

Mode of operation : Operating mode

Detector : quasi-peak detector

Temperature : 23°C

Humidity : 50%

| Freq<br>MHz   | Level<br>dBuV/m | Limit/ Detector<br>dBuV/m |
|---|-----------------|---------------------------|
| 13.564  | 56.86           | 124.0 / QP                |
| <b>Results:</b> For test Results plots refer to Appendix 1, page 3.<br><b>Verdict:</b> Pass |                 |                           |

#### Subclause 15.225 (e) – Frequency Tolerance

**Pass**

**Requirement:** The frequency tolerance of the carrier signal shall be maintained within +/- 0.01% of the operating frequency over a temperature variation of -20 degrees to +50 degrees C in 10 degrees C steps at normal supply voltage, and for a variation in the primary supply voltage from 85% to 115% of the rated supply voltage or battery end point at a temperature of 20 degrees C. For battery operated equipment, the equipment tests shall be performed using a new battery.

Test Specification : FCC Part 15 Subpart A – Subclause 15.31

Mode of operation : Operating mode

Detector : Peak

RBW/VBW : 30 Hz / 30 Hz
