USER'S MANUAL

blu.boo®
Magic Box

SAFETY PRECAUTIONS

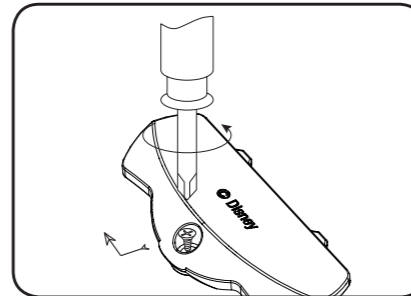

- ⚠ **WARNING!** Operation of this device must always be supervised by an adult. Do not allow children access to the interior of this device and do not permit them to handle any cables.
- Do not use this device in wet or dusty environments, under direct sunlight, or in extremely hot or cold conditions. Keep away from sources of heat.
- To prevent electric shock, keep this device away from water. Do not attempt to disassemble the device. Do not remove the battery.
- Do not place heavy objects on the device. Do not drop the device. Do not apply pressure or excessive force to it.
- For your own safety, do not attempt to open the device case or to make alterations. Do not paint the device or put stickers on it.
- Use only the accessories supplied with your device. Use only with the recommended transformer. Power adapters, transformers and other accessories are not toys!
- When using ports on the device, connect cables and sockets according to the usage information. Never force a connector into a port. If you need to force a connector into a port, that generally means they do not match.
- Connect the device to a power outlet using a mini USB cable and a USB power adapter (not supplied) to charge it. Alternatively, connect the device directly to a USB port on your computer (not an external keyboard) using a mini USB cable.
- The battery may warm up while charging. This is normal. Do not cover the device while charging and allow good ventilation to the charger.
- Before cleaning the device, turn it off and disconnect from the battery charger. Clean the outside of your device with a soft cloth.
- Actual device may differ from the picture(s) in the User's Manual. The properties offered may differ depending on the software version and the contents. Device properties may be subject to constant changes.

FCC NOTICE

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be collocated or operating in conjunction with any other antenna or transmitter within a host device, except in accordance with FCC multi-transmitter product procedures.

IMPORTANT BATTERY NOTICE

- Install batteries correctly observing the polarity (+,-) signs.
- Rechargeable batteries are only to be charged by adults.
- Always remove exhausted batteries from the device.
- The supply terminals are not to be short-circuited.
- Regularly examine the transformer or the battery charger for any damage to their cord, plug, enclosure and other parts. In case of damage to any part of the device, do not use until the damage has been repaired.
