

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. The white plastic housing is open, revealing a blue printed circuit board (PCB) with various electronic components. A black ruler is placed vertically next to the housing for scale. The PCB is labeled with "3VDC 50mA CR123" and "RCX 2123".
Solder Board-Component View 1	 A close-up photograph of the solder board component. The blue PCB is shown with various electronic components, including a large black integrated circuit (IC) and a smaller component labeled "RCX 2123". A black ruler is placed vertically next to the component for scale.

Solder Board-Component View 2	 A photograph showing a small blue printed circuit board (PCB) component mounted on a black solder mask. The component is positioned vertically next to a black ruler with white markings. The ruler has two scales: one in millimeters (0 to 100 mm) and one in centimeters (0 to 10 cm). The component is labeled with '3VDC 50 CR123' and 'NETATRO INC. V1.0'. A red wire is connected to the component.
Antenna View	 A photograph showing the same blue PCB component from a different angle, focusing on the antenna area. A red box highlights the antenna structure, which is labeled 'BT and IEEE802.15.4 Ant'. The component is placed on a black ruler with white markings, similar to the previous view. A red wire is connected to the component.
