

## APPENDIX 1: Photographs of EUT and SAR test setup

### Appendix 1-1: Photograph of EUT and antenna position

## Appendix 1-2: EUT and support equipment

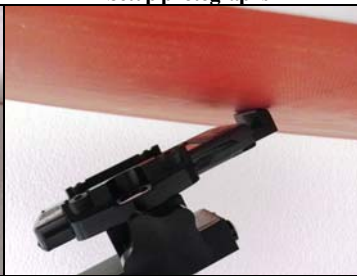

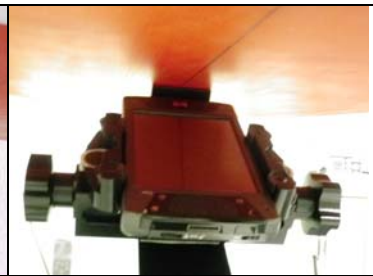

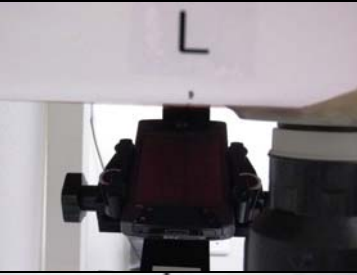

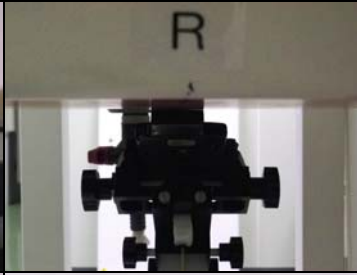

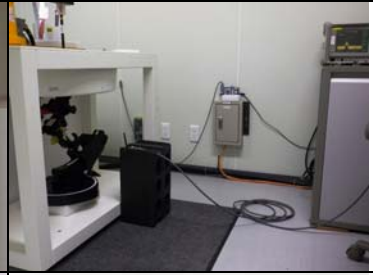

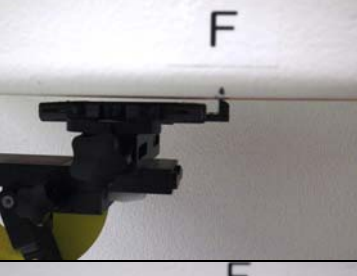

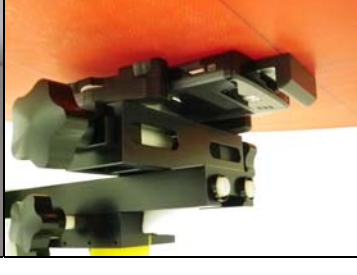

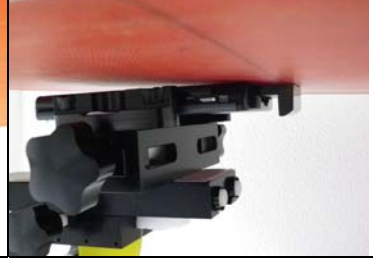

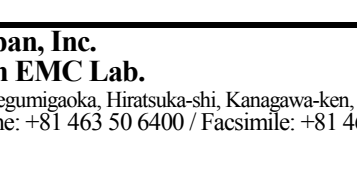

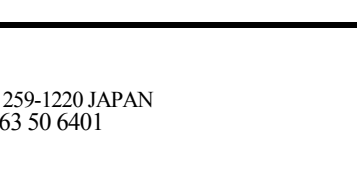

### Description of EUT and Support Equipment

| No. | Item              | Model number | Serial number        | Manufacturer                | Remark                                                      |
|-----|-------------------|--------------|----------------------|-----------------------------|-------------------------------------------------------------|
| A   | Wireless LAN Card | E1600-12A    | 001723146B56(Mac.id) | Honda Engineering Co., Ltd. | EUT.                                                        |
| B   | Pocket PC         | iPAQ hx4700  | 00039-081-395-425    | HP                          | Support equipment.<br>Typical platform for the EUT.         |
| C   | Docking Station   | HSTNH-F02X   | E89760AZDRB3SF       | HP                          | Support equipment. (These items were not used for SAR test) |
| D   | AC Adaptor        | HP-AC010L63  | 584BA01YMR77DJ       | HP                          |                                                             |

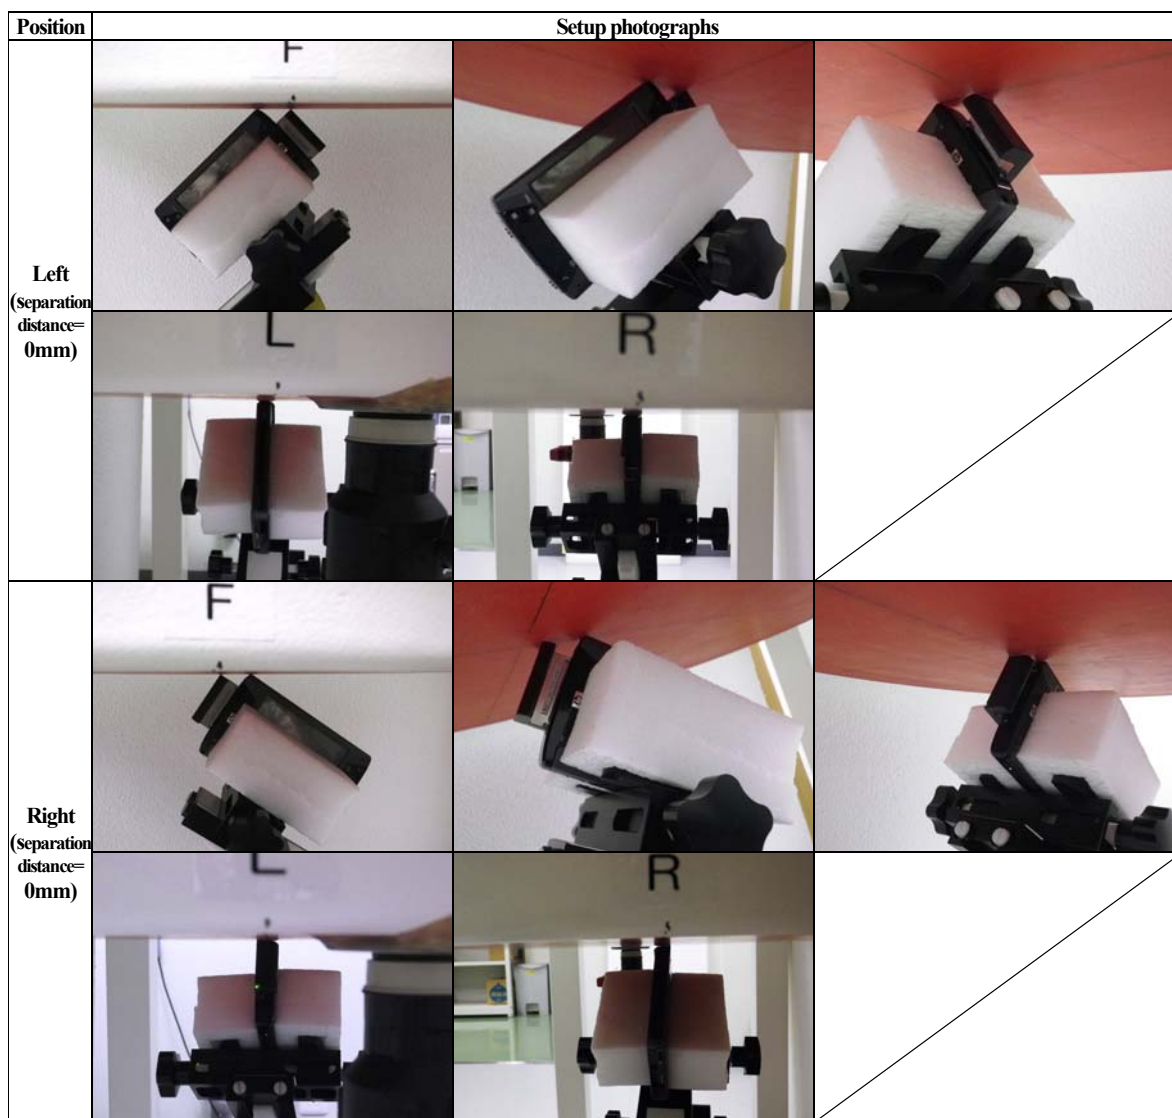

### List of cables used

| No. | Name                  | Length (m) | Shield     | Shell type | Remark                                |
|-----|-----------------------|------------|------------|------------|---------------------------------------|
| ①   | DC cable (AC adaptor) | 1.1        | Unshielded | -          | (This item was not used for SAR test) |
| ②   | USB cable             | 1.8        | Shielded   | metal      | (This item was not used for SAR test) |

**Appendix 1-3: Photograph of test setup**

| Position                                   | Setup photographs                                                                   |                                                                                      |                                                                                       |
|--------------------------------------------|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| Front-antenna<br>(separation distance=0mm) |    |    |    |
|                                            |    |    |    |
|                                            |   |   |   |
| Top<br>(separation distance=5mm)           |  |  |  |
|                                            |  |  |  |
|                                            |  |  |  |
| Front<br>(separation distance=0mm)         |  |  |  |
|                                            |  |  |  |
|                                            |  |  |  |
| Rear<br>(separation distance=0mm)          |  |  |  |
|                                            |  |  |  |
