

FCC ID: N48PSW3000

1.1 Product Description

The Equipment Under Test (EUT) is a remote control transmitter operating at 315MHz. The EUT is powered by DC3V "AAA" battery. There are 7 rubber control keys used to control up and down of volume, up and down of frequency, $0^{\circ} < \text{phase} < 180^{\circ}$ phase and on or stand by mode. During manual operation, it transmits a signal to the receiver (the subwoofer), which will operate as the user commands. It ceases transmission in less than 1 second after being released the key. In addition, there is a switch found inside the sample; it was preset to operate at 315 MHz by manufacturer and cannot be accessed by user.
