To Whom It May Concern:

## **DIFFERENCES BETWEEN POSIPIN-S (CR-R885-S) and POSIPIN-A (CR-R885-A)**

Both models are identical except the CR-R885-A communicates with an alarm and/or access system, while the CR-R885-S works stand-alone. It is important to point out that both versions may be offered with a blue LED version, CR-R885-BL (CR-R885-A in blue version) and CR-R885-SB (stand-alone in blue version).

If you have any questions or comments, please do not hesitate to contact me,
