

ADRF KOREA, Inc.

Date: Oct. 26, 2021

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road,
Columbia, MD 21046

FCC ID: N52-ADXV-R-339P (Original Approval Date: 09/10/2020)
Class II Permissive change

To whom it may concern:

We would like to apply for C2PC to add 900 MHz broadband (936.5–939.5 MHz bands for Downlink) under Part 27 by S/W.

Also, the target power for 936.5–939.5 MHz bands is lower than (33 dBm → 32 dBm) the original approval. (Note: The lower power is only for the new LTE G7W operations - new mode)

There is no H/W change here.

Sincerely,

Best Regards

Hyun-Kyung Song / Management Support Team Manager
