REQUEST FOR CONFIDENTIALITY

Dear Sir/Madam,

Consistent with the requirements in 47 CFR §0.459(a) & (b), we request that the following material, submitted as part of our Type Acceptance Application, Form 731, be withheld from public inspection:

EXHIBIT 2 – TECHNICAL INFORMATION (in its entirety)

This Exhibit includes the detailed circuit schematic diagrams, detailed descriptions of the circuitry, and details of the functions and features of our new product, the Chapman Personal Safeguard Companion.

Much of the information contained throughout “Exhibit 2 – Technical Information”, is Confidential Information and Trade Secrets that represent a significant investment of Chapman Technologies, Inc., and which, if revealed to competitors, could seriously undermine the value of the company. Therefore, under 47 CFR §0.457(d) we respectfully request that this Exhibit be withheld from public inspection.

Each page of the Exhibit has been marked “CONFIDENTIAL” in clear large lettering. Exhibit 2 has been placed in a separate envelope along with a copy of this letter, but is included in the application package in its correct position. The additional fees for Confidentiality, for both the Type Acceptance and the Certification, have been included in the payment.

Yours faithfully,

Graham K Smith
Director of Systems Development,
Chapman Technologies, Inc.
