CAUTIONS:

- Prevent short circuit.
- Do not attempt to open the battery case.
- Keep away from high temperature.
- Only use the charger specialized for this battery.
- No memory effect, no need to discharge before recharge.

P/D: 20060912

Made in China

← **LI-POLYMER BATTERY**

Model: SM-125

Voltage: 3.7V

Capacity: 380mAh

Max. Voltage: 4.2V

Product Standard No: GB/T18287-2000

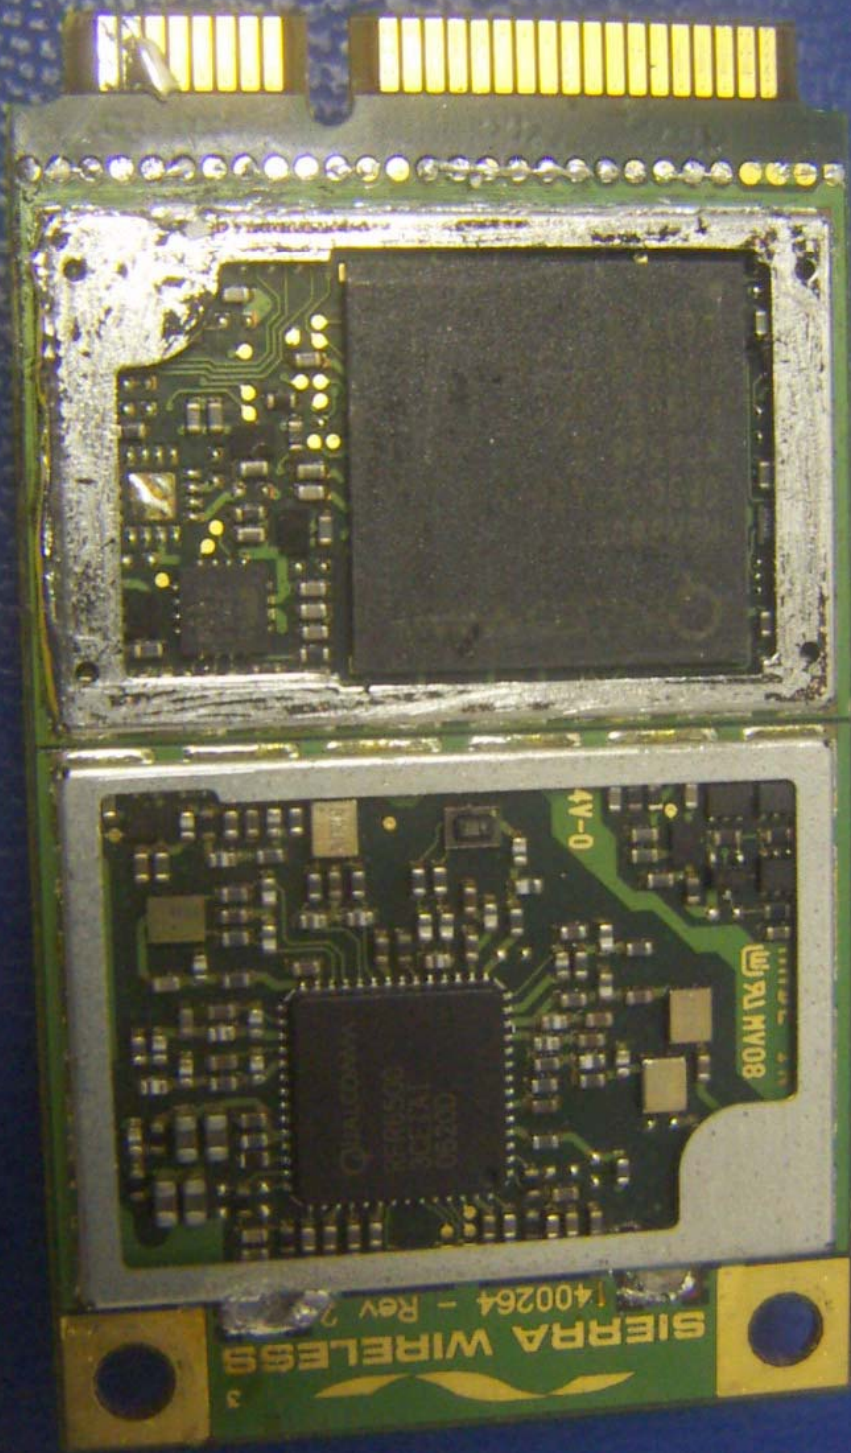

WARNING: Collision and fire will
Probably cause the explosion!

Lot NO. JN000131
