Applicant: Sierra Wireless

Attestation: Use & Packaging for AC803S Desktop Cradle Accessory

This letter affirms that the above referenced Desktop Cradle Accessory, as the name implies is designed solely for use on flat horizontal surfaces such as; Desktop, countertop, book shelf or other suitable flat surfaces.

The design of this Desktop Cradle Accessory includes specific details including; large size, shape, ballast weighting, rubber feet, and extra long USB cable which are all consistent with a fixed desk top type accessory. Further the attached 1.4 meter USB cable is provided to ensure sufficient distance can be maintained between this accessory and the human body under normal use conditions while at the same time enabling the user to "Extend" the cradle as far as possible from the Desktop computer in order to optimize signal reception.

FCC Packaging Warning:

The current packaging includes the following FCC warning;

"To Comply with Federal Communication Commission (FCC) and Industry Canada (IC) guidelines respecting safety levels of Radio Frequency (RF) exposure, a separation distance of at least 20cm / 8 inches is required between the cradle & user body".

This warning is consistent with previous FCC requirements for a mobile classified device.

A separate Users Manual is not provided with this product as all pertinent information is provided on the packaging itself. No further user instructions are required beyond those provided as the device design conveys only one use scenario.

If you have any questions regarding this application, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Van Cleave".
