

## **Product Equity Declaration Letter**

23-Dec-2015

To Whom It May Concern,

We, Sierra Wireless, certify that AirPrime HL6528RD and AirPrime HL6528RD-G2.8V shall be considered as identical for all and any Industry certification purposes.

From a HW point of view, the only differences are:

- ONE non-connected resistor to identify them on production line.
- ONE level shifter connected to I/O pad to enable customers to receive 2.8V GPIOs instead of 1.8V GPIO in HL6528RD.
- GPS component populated on the same PCB

Additionally the firmware is 100% identical.

Sincerely,

A handwritten signature in black ink, appearing to read "Denis CHABOT". The signature is fluid and cursive, with a large, stylized "D" at the beginning.

Denis CHABOT
