Columbia, MD 21046

SUBJECT: Class II Permissive Change for FCC ID: N7NHL6528RD

The product, Embedded module, has been granted by FCC dated 12/18/2015, FCC ID: N7NHL6528RD.

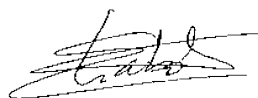

Now we, Sierra Wireless Inc., would like to modify the authorized equipment for below changes:

- Changed the model name from HL6528RD to HL6528RD-G2.8V.
- From a HW point of view, the only differences are:
 - ONE non-connected resistor to identify them on production line.
 - ONE level shifter connected to I/O pad to enable customers to receive 2.8V GPIOs instead of 1.8V GPIO in HL6528RD.
 - GPS component populated on the same PCB.

Except for the change above, no other modification is performed. And the details please refer to the Declaration of Product Equity. Also, the change does not have any impact on the approved radio parameter such as power, frequency range, modulation etc.

We would like to certify the additional of certified FCC ID: N7NHL6528RD as a Class II Permissive Change in this device.

Sincerely,
