## 5.2 - SOUND
### TO ACTIVATE SOUND:

1) Press **Menu** icon to access main menu.

2) Press **sound** icon to **activate** or **deactivate** sound.

ON          OFF

3) Press **OK** icon to confirm.

### TO TEST SOUND:

Ask someone to speak into the Nursery Unit or place the unit near a radio to ensure that sound is being picked up.
**IMPORTANT**
To avoid feedback (whistling), keep both units at least 3 m apart.
### IF YOU HEAR NO SOUND:

• Check that both units are powered on.
• Check that both units are plugged into functioning electrical outlets.
• Check the batteries in both units (replace or recharge them if necessary).
• Bring Parent Unit closer to Nursery Unit.

---

**ADJUST SOUND LEVEL**

Raise volume (+)
Lower volume (-)

**PUT IN SILENT/MUTE MODE**

Press the (-) button for 2 seconds to mute sound.

**PUT IN DIALOGUE MODE**

Press and hold talk button to speak to baby.

---

## 5.3 - BATTERIES

### HOW TO CHECK THE BATTERIES:

Unplug the Adapters from both units.

• If the green light on the Nursery Unit does not show, replace the batteries.
• If the Parent Unit and its screen do not light up, recharge the batteries.

### HOW TO CHARGE THE BATTERIES IN THE PARENT UNIT:

Leave the Parent Unit in the Charging Cradle to fully charge the unit. Although the batteries at 1/3 capacity works normally, we recommend that you fully recharge them.

1/3 full     2/3 full     full

**PARENT UNIT BATTERY ALARM**
• Alarm activates when the batteries need to be recharged.
• Parent Unit will emit a beep sound every 15 seconds.
• Battery Alarm icon will show on LCD screen.

# YOU ARE NOW READY TO USE YOUR MONITOR

The Angelcare® monitor can be used with the pre-program factory settings or you can also customise your settings to your preference.

## DEFAULT SETTINGS

**Continuous Sound:** ON
**Speaker Volume:** Level 3 (of 6)

**Movement Mode:** ON
**Sensor Pad Sensitivity:** Level 3 (of 5)
**TIC:** OFF

**Temperature Alarm:** OFF
**Temperature Alarm Settings:**
      High Temperature Limit: 32˚
      Low Temperature Limit: 5˚

**VOX Mode:** OFF

**Alarm Mode:** Sound alarm only

**Video Camera:** ON

**IMPORTANT**
• Test your monitor before first use.
• Test your monitor regularly to ensure it is functioning correctly.
• Test your monitor every time you move the Sensor Pad to a different place.

 All changes and adjustments made in the main menu and sub-menus will not be activated unless you confirm them by pressing the **OK** icon.

**IMPORTANT**
When in the menu or sub-menu modes, sound transmission between Parent and Nursery Units will be temporarily deactivated. ONLY the motion-detection alarm will remain active (if function is activated).
## 6.1 - VOICE ACTIVATION (VOX) OR CONTINUOUS SOUND MODE

Allows you to select your option on how you monitor sound:

**VOX** (voice activation picks up sound based on the setting of the sensitivity level) or

**Continuous** (sound monitoring is continuously on, picking up all sounds).

**TO ACTIVATE VOX MODE:**

**1)** Press **Menu** icon to access the main menu.

**2)** Press **settings** icon to access sub-menu.

**3)** Press **the VOX** icon to **activate** or **deactivate** the VOX function.

**NOTE:**
By deactivating VOX the Continuous setting is ON.

**4)** Press **OK** to confirm.

**ON**
 VOX ON (VOX)

**OFF**
 VOX OFF (Continuous)

**TO ADJUST THE VOX SENSITIVITY:**

Allows you to determine the sound level needed to trigger sound transmission to the Parent Unit.

**1)** Press **Menu** icon to access the main menu.

**2)** Press **settings** icon to access sub-menu.

**3)** Press **VOX** icon sensitivity to choose sound sensitivity level (1 to 4).

**4)** Press **OK** to confirm.

## 6.2 - ALARM

Allows you to select your preferred alarm mode for the Parent Unit.

**1)** Press the **Menu** icon to access main menu.

**2)** Press the **settings** icon to access sub-menu.

**3)** Press the **Alarm** icon to change the alarm mode.

**4)** Press **OK** to confirm.

Sound alarm only

Sound alarm and vibration

Vibration only (the alarm will not sound on Parent Unit but it will on Nursery Unit).

Alarm Mode icon shows in the top bar of the Parent Unit.

Sound alarm will replace vibration mode when the Parent Unit is in its Charging Cradle.

When the battery capacity is low, the vibration will be temporary deactivated. It will reactivate when the battery is fully recharged.

**IMPORTANT**
When in setting mode no sound or alarms will transmit to the Parent Unit, except the movement alarm (if this function was already activated).

## 6.3 - HOLD

Allows you to put your Angelcare Monitor on HOLD.

**1)** Press the **Menu** icon to access main menu.

**2)** Press the **Hold** icon **OR** Press and hold the **Nursery Unit Main button** for at least 2 seconds.

**3)** **Hold** icon will appear on the screen.

**4)** Press the **Hold** icon or **Nursery Unit Main button** again to return to normal operation.

Nursery Unit Night Light will blink. Parent Unit will emit 3 consecutive beeps every 30 seconds to remind you that monitor is on hold.
**IMPORTANT**
When your monitor is on hold, the motion-detection feature and motion alarm are disabled.

## 6.4 - THERMOMETER

**TO CHANGE THE MEASUREMENT UNIT:**
