Share your experience! Customer delight and a gracious product experience are our top priorities, and we want to know how we did. Post a review on the kohler.com product page for your product or on the website where you purchased your product.

IMPORTANT SAFEGUARDS AND PRECAUTIONS

READ ALL INSTRUCTIONS BEFORE USING

When using electrical products, especially when children are present, basic safety precautions should always be followed, including the following:

MODULE FOR KOHLER PRODUCTS ONLY

 **DANGER: Risk of electric shock.** Connect only to a circuit protected by a Ground-Fault Circuit-Interrupter (GFCI)*.

*Outside North America, this may be known as a Residual Current Device (RCD).

 **WARNING: Risk of electric shock.** Disconnect the power before servicing.

 **WARNING: Risk of personal injury.** RG-3 UV radiation emitted from this device. Unintended use of the device, or damage to the housing, may result in exposure to ultraviolet radiation. Skin or eye injury could result. Avoid exposure of eyes and skin to unshielded lamp. Always be certain the lamp is off before opening the protective cover.

 **CAUTION: Risk of personal injury.** Replacement of the UV lamp must only be performed by qualified service personnel. The UV lamp cover has an interlock to reduce the risk of excessive ultraviolet radiation. Do not bypass the interlock. Reinstall the interlock after servicing.

 **CAUTION: Risk of product damage.** Do not install this product in a location exposed to excessive moisture where condensation might form on the product surface. Provide adequate ventilation when bathing to avoid damage to the electronic components due to high humidity levels.

 **CAUTION: Risk of product damage.** To reduce the risk of product malfunction, do not supply electrical power to the unit until the plumbing installation work has been completed.

 **CAUTION: Risk of product damage.** Do not apply excessive force to the spray wand.

NOTE: This product contains thermal protectors that may trip during storage or transportation in warm conditions, causing the unit to not operate. Allow the unit to cool to room temperature before installation or operation.

 **WARNING: To reduce the risk of burns, electrocution, fire, or injury to persons:**

Close supervision is necessary when this product is used by or near children, the elderly, or invalids. Do not allow the product to be used as a toy. Adjust the temperature of the seat for the elderly, those who are incapacitated, or persons with sensitive skin.

Use this product only for its intended use as described in this manual. Only use attachments recommended by Kohler Co.

Never operate this product if the cord or plug is damaged, if the product is not working properly, if the product has been dropped, damaged, or dropped into water. Return the product for examination and repair.

Keep the cord away from heated surfaces.

Never block the air openings of the product. Keep the air openings free of lint, hair, and the like.

Never use while sleeping or drowsy.

Never drop or insert any object into any opening or hose.

Do not use outdoors or operate where aerosol spray products are being used or where oxygen is being administered.

Connect this product to a properly grounded outlet only. See the “Grounding Instructions” section.

The use of this product is a supplement to and not a substitute for standard infection control practices; users must continue to follow all current infection control practices, including those related to the cleaning and disinfection of environmental surfaces.

This product conforms to applicable provisions of US 21 CFR, Chapter 1, Subchapter J, Radiological Health.

SAVE THESE INSTRUCTIONS

Grounding Instructions

This product should be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current. This product is equipped with a cord having a grounding wire with a grounding plug. The plug must be plugged into an electrical outlet that is properly installed and grounded.

DANGER: Risk of electric shock. Improper use of the grounding plug can result in a risk of electric shock.

If repair or replacement of the cord or plug is necessary, do not connect the grounding wire to either flat blade terminal. The wire with insulation having an outer surface that is green with or without yellow stripes is the grounding wire.

Check with a qualified electrician or service personnel if the grounding instructions are not completely understood, or if in doubt whether the product is properly grounded.

This product is factory equipped with a specific electric cord and plug to permit connection to a proper electric circuit. Verify that the product is connected to an outlet having the same configuration as the plug. No adapter should be used with this product. Do not modify the plug provided. If the plug does not fit the outlet, have the proper outlet installed by a qualified electrician. If the product must be reconnected for use on a different type of electric circuit, the connection should be made by qualified service personnel.

Do not use an extension cord with the product.

Compliance

FCC ID: N82-KOHLER056

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Warning

The device has been evaluated to meet general RF exposure requirements. This device must not be co-located or operated in conjunction with any other antenna or transmitter.

IC: 4554A-KOHLER056

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s): (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This transmitter with its antenna complies with Industry Canada RF Exposure Limits for General Population/Uncontrolled Exposure.

This Class B digital apparatus complies with Canadian ICES-003.

Conformité

ID FCC : N82-KOHLER056

Ce dispositif est conforme à la section 15 des réglementations de la FCC. L'utilisation est assujettie aux deux conditions suivantes : (1) Ce dispositif ne peut pas créer un brouillage nuisible, et (2) ce dispositif doit accepter tous les brouillages captés, y compris les brouillages qui pourraient créer un fonctionnement non souhaité.

Tous changements ou modifications non expressément approuvés par la partie responsable garantissant la conformité pourraient annuler le droit à l'utilisateur d'opérer cet équipement.

Cet équipement a été testé et a été considéré être conforme aux limitations pour un dispositif numérique de classe B, selon la section 15 des réglementations FCC. Ces limites sont conçues pour fournir une protection raisonnable contre tout brouillage nuisible dans une installation résidentielle. Ce dispositif génère, utilise et peut émettre une énergie de radiofréquence et, s'il n'est pas installé et utilisé conformément aux instructions, pourrait créer des brouillages nuisibles aux communications par radio. Cependant, il n'est pas garanti qu'aucun brouillage n'aura lieu dans une installation particulière. Si cet équipement cause des brouillages radio nuisibles à la réception de radio ou de télévision, ce qui peut être déterminé en éteignant l'équipement et en le rallumant, l'utilisateur est encouragé à essayer de rectifier ce brouillage par l'un des moyens suivants :

- Réorienter ou changer l'emplacement de l'antenne de réception.
- Augmenter la séparation entre l'équipement et le récepteur.
- Brancher l'équipement sur une prise d'un circuit différent de celui auquel le récepteur est connecté.
- Consulter le concessionnaire ou un technicien radio/TV expérimenté pour obtenir de l'assistance.

Mise en garde concernant l'exposition aux radiofréquences

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. Cet appareil ne doit pas être colocalisé ou utilisé en conjonction avec une autre antenne ou émetteur.

IC : 4554A-KOHLER056

Ce dispositif comprend un ou des émetteurs/récepteurs exempts de licence qui sont conformes aux normes RSS(s) d'exemption de licence d'Innovation, Sciences et Développement économique Canada : (1) ce dispositif ne doit pas causer une interférence, et (2) ce dispositif doit accepter toute interférence, y compris une interférence qui pourrait créer un fonctionnement non souhaité du dispositif.

Cet émetteur et son antenne sont conformes aux limites d'exposition RF d'Industry Canada pour le public général/l'exposition non contrôlée.

Cet appareillage numérique de classe B est conforme à la norme canadienne ICES-003.

Conformidad

FCC ID: N82-KOHLER056

Este dispositivo cumple lo establecido en la sección 15 de las normas de la FCC. Su funcionamiento está sujeto a las siguientes 2 condiciones: (1) que este dispositivo no cause interferencia perjudicial y (2) que acepte cualquier interferencia, incluida la que pueda causar funcionamiento no deseado.

Cualquier modificación o cambio sin aprobación expresa de la parte responsable del cumplimiento podría invalidar el derecho del usuario a utilizar el equipo.

Este equipo ha sido probado, y se ha encontrado que satisface los límites de un aparato digital Clase B, de acuerdo a la sección 15 de las normas de la FCC. Estos límites están diseñados para ofrecer protección razonable contra interferencia perjudicial en una instalación residencial. Este equipo genera, usa y puede radiar energía de radiofrecuencia y, si no se instala y utiliza en cumplimiento de las instrucciones, puede causar interferencia perjudicial a las comunicaciones de radio. Sin embargo, no se garantiza que la interferencia no pudiera ocurrir en una instalación en particular. Si este equipo causa interferencia perjudicial a la recepción de radio o televisión, lo que se puede determinar al encender y apagar el equipo, se le recomienda al usuario que trate de corregir la interferencia mediante una de las siguientes medidas:

- Cambiar la orientación o el lugar de la antena receptora.
- Aumentar la separación entre el equipo y el receptor.
- Conectar el equipo a un tomacorriente en un circuito diferente al que utiliza el receptor.
- Consultar al distribuidor o a un técnico con experiencia en radio y televisión, para obtener ayuda.

Advertencia de exposición a RF

Este transmisor con su antena cumple los límites de exposición de radiofrecuencia (RF) de la FCC para la exposición no controlada/población general. Este dispositivo no debe ubicarse ni hacerse funcionar con ninguna otra antena o transmisor.

IC: 4554A-KOHLER056

Este dispositivo contiene transmisores/receptores exentos de licencia que cumplen las RSS exentos de licencia de Innovación, Ciencia y Desarrollo Económico de Canadá: (1) este dispositivo no puede causar interferencia, y (2) este dispositivo debe aceptar cualquier interferencia, incluida la que pudiera causar funcionamiento indeseado del dispositivo.

Este transmisor con su antena cumple los límites de exposición de radiofrecuencia (RF) de la Industria de Canadá para la exposición no controlada/población general.

Este aparato digital Clase B cumple la norma canadiense ICES-003.
