

Re: Applicant: KARBONSTREAM CORPORATION

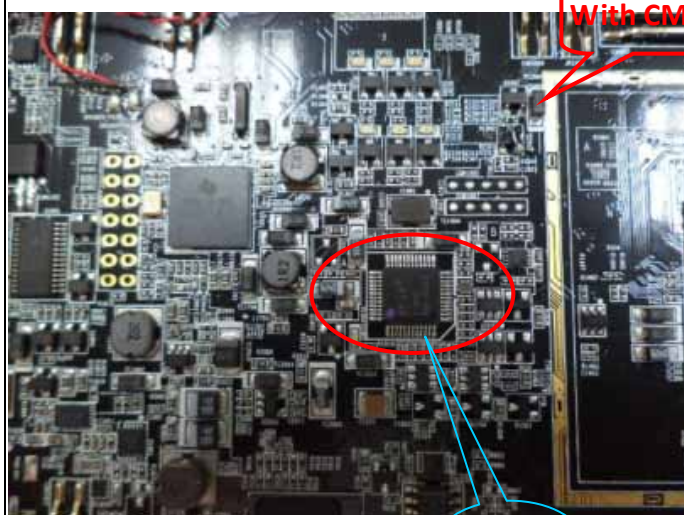

FCC ID: N8A26380

Declaration Letter

We, KARBONSTREAM CORPORATION request permissive class II change for the KARBONPAS under FCC ID: N8A26380, model name 26380. For this application, 26380 is modified to add a DC jack for extra way charging and to remove CMOS power regulator and changed MCU to MSP430AFE232IPW. Otherwise and WiFi circuits are identical with original's grant. The differences between this application and original's ID as clarified in following pages.

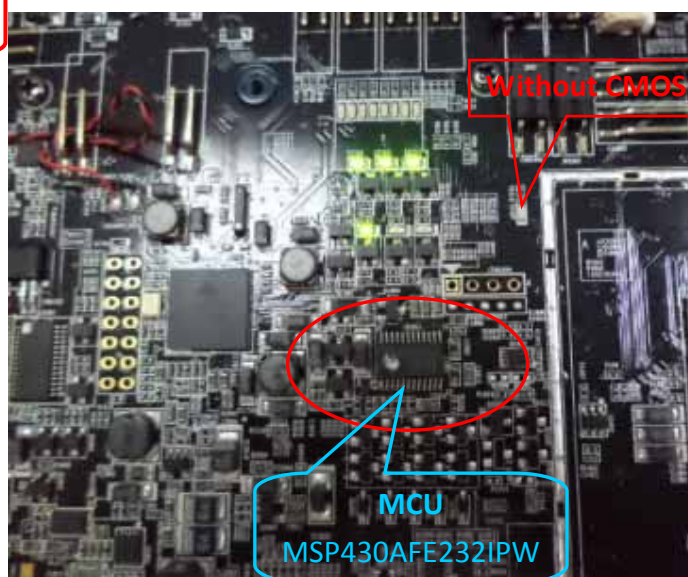

Original	Class II Change
 A photograph of the internal components of a mobile device. The battery is visible on the left, and the main circuit board is in the center. A red circle highlights a small component at the bottom of the board.	 A close-up photograph of the internal components of the modified device. A red circle highlights a parallel DC jack. A red line points from a text box below to this component. <p data-bbox="959 1659 1295 1722">A parallel DC jack</p>
