

APPLICANT: **DYNAMIC8 Technology Co., Ltd**
FCC ID: N8CDCC1109

The theory of FM Transmitter (Model: 1109):

- 1, RF Unit: RF device transmits data by modulating; the Crystal frequency is 12MHz.
- 2, RF signal and the antenna impedance matching.
- 3, The antenna gain is 2dBi.
- 4, Power : To charge the battery via USB
- 5, Screen: Display transmit frequency band
